

# All your music in the palm of your hand...

Pronto  
TSU9400

Pronto  
TSU9600

## ...as well as smart home control

With a touch on any Philips Pronto colour screen, you select what you want to do: watch TV, play music, adjust lighting & temperature or even check the weather. There is no need to figure out equipment configurations, nor will you get lost in a complex menu.

### Music & Video servers

View and control playlists from video & music servers (like the SqueezeBox, see offer below) on your Pronto

### Entertainment systems

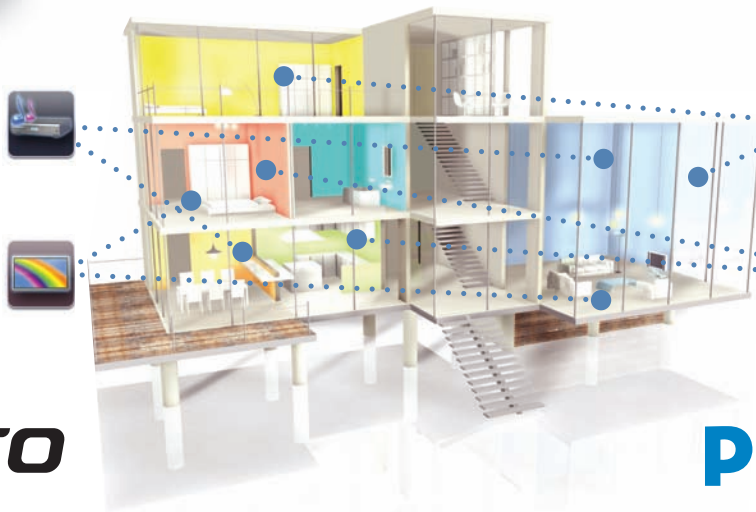

Control Foxtel/Austar, HDTV, DVD and more - even when out of sight. Volume level & radio frequencies are shown on the Pronto screen

### Lighting & Curtains

Control lighting moods, dimmers & curtains - your Pronto screen will display live status

### Air Conditioning

Reliable wireless temperature control for any room with confirmation on your Pronto

**pronto**

designed around the way you live

**PHILIPS**

sense and simplicity

## Music Server Limited Offer\*

For only \$199 when you purchase any Philips Pronto control, you'll receive a SqueezeBox Media Player valued at \$399! With SqueezeBox you can play all your digital music from anywhere in your home - using your Pronto just like an iPod - plus listen to 1000's of internet radio stations.

[Actual SqueezeBox screenshot is illustrated on each control above]

**SLIM DEVICES**  
squeezebox

\*Offer expires June 30, 2008. Only available at accredited Philips Pronto participating stockists as part of an integrated system solution. Programming costs not included. Maximum one SqueezeBox offer per customer.
